RELEVANT EXPERIENCE

The degree program in Workforce Training and Development from USM is based upon the American Society for Training & Development (ASTD) competencies for Trainers and the ADDIE model: Analyze, Design, Develop, Implement, and Evaluate. Courses completed in the core curriculum include:

- Workforce Development Models
- Strategies for Technology Training
- Performance Technology I and II
- Workforce Analysis
- Multimedia Authoring for Performance Improvement
- Emerging Digital Technologies

The program required a concentration. I selected computers, with an emphasis in both Engineering Technology and Design Computing. Relevant elective courses taken at USM:

- Digital Fundamentals
 - Windows Networking
 - 3D Modeling and Animation I and II
 - Virtual Reality
-
